EXPERIENCE

Summer Intern (REACT JS)

May 2024 - present

Celebel Technologies

Remote

- ❖ Selected as Summer Intern out of few People in my college
- ❖ Hands on Training on Web Technologies , 5 minor projects and 1 Major Project

Android Developer Intern

March 2023 - April 2023

Teachnook

Remote

- Achieved In depth Knowledge of Android Development which is led by industry Expert.
- Developed 2 Projects Quiz app (minor) and contributed in E-commerce App (major) for building product listing.

PROJECTS

Socialseed : Socialseed is a modern social media app developed by my team. It features various functionalities from contemporary social media platforms, integrated with AI capabilities for post generation and story trimming. The app follows clean code principles and encompasses frontend and backend development, testing, and penetration testing for privacy and security.

Weatherify : Weatherify is a weather forecasting app built using Flutter, with data provided by weatherapi.com. The application alerts users about rain or storm predictions, reminding them to bring an umbrella. It was presented at an inter-college tech fest, where it received appreciation from the judges, achieving commendable results despite not winning.

EXTRA-CURRICULAR ACTIVITIES

- We secured the 1st Prize in the Poster Competition, addressing the topic of Global Warming. As a reward, we received a tree sapling.
